
COVID 19 PREVENTION PLAN 2021-2022

New Guidance

LOS ANGELES LEADERSHIP ACADEMY

New Guidance 2021-2022 School Year

Mandate: K-12 students are required to mask indoors and outdoors, with exemptions per [CDPH face mask guidance](#). Adults in K-12 school settings are required to mask when sharing indoors and outdoors spaces with and without students.

CDPH Recommendations	COVID-19 Prevention Plan (LALA) (LALPA)	Proposed Changes
Mask		
Masks are optional outdoors for all in K-12 school settings.	Wear a mask indoors and outdoors.	Students and staff will wear a mask indoor and outside. Staff will wear KN95
Schools must develop and implement local protocols to provide a face covering to students who inadvertently fail to bring a face covering to school to prevent unnecessary exclusions.	The school provides facemask to all students and staff.	No change proposed
Consistent with guidance from the 2020-21 school year, schools must develop and implement local protocols to enforce the mask requirements. Additionally, schools should offer alternative educational opportunities for students who are excluded from campus because they will not wear a face covering. Note: Public schools should be aware of the requirements in AB 130 to offer independent study programs for the 2021-22 school year	The school has an Independent Study Policy. On July 28,2021 the school will adopt a new Independent study Policy	Follow the previous Independent Study Policy and the new Independent Study Policy. (Tier 1 and Tier 2)

<p>In limited situations where a face covering cannot be used for pedagogical or developmental reasons, (e.g., communicating or assisting young children or those with special needs) a face shield with a drape (per CDPH guidelines) can be used instead of a face covering while in the classroom as long as the wearer maintains physical distance from others. Staff must return to wearing a face covering outside of the classroom.</p>	<p>Not in the school plan</p>	<p>The school will provide the appropriate staff with a face shield (if the situation occurs).</p>
<p>Physical Distancing</p>		
<p>Recent evidence indicates that in-person instruction can occur safely without minimum physical distancing requirements when other mitigation strategies (e.g., masking) are implemented. This is consistent with CDC K-12 School Guidance.</p>	<p>The school rule 6ft Physical distancing</p>	<p>No Physical distancing requirement.</p>
<p>Ventilation</p>		
<p>For indoor spaces, ventilation should be optimized, which can be done by following CDPH Guidance on Ventilation of Indoor Environments and Ventilation and Filtration to Reduce Long-Range Airborne Transmission of COVID-19 and Other Respiratory Infections: Considerations for Reopened Schools.</p>	<p>The school has Marv 13 filters, and the filters are changed 3 times a year.</p>	<p>No change proposed</p>
<p>Stay home when sick</p>		

Getting tested for COVID-19 when symptoms are consistent with COVID-19 will help with rapid contact tracing and prevent possible spread at schools.	The school has COVID-19 protocols. Suppose the student or staff member has a temperature over 100.4, the student or staff member will be COVID-19 tested by the school nurse. Students require parent permission.	No change proposed
Advise staff members and students with symptoms of COVID-19 infection not to return for in-person instruction until they have met CDPH criteria to return to school	The school has COVID-19 protocols.	No change proposed
Screening		
CDPH has a robust State- and Federally-funded school testing program and subject matter experts available to support school decision making, including free testing resources to support screening testing programs (software, test kits, shipping, testing, etc.).	The school has COVID-19 testing every two weeks for all staff and students.	All staff and students will be COVID-19 tested weekly for the month of January and will extend if needed . Service Providers send the school negative COVID test weekly to work on campus. The school has Vaccination Policy all students and staff and providers must follow.
Contact Tracing		
Per AB 86 (2021) and California Code Title 17, section 2500, schools are required to report COVID-19 cases to the local public health department.	The School have COVID-19 protocols in place.	No change proposed
Schools or LEAs should have a COVID-19 liaison to assist the local health department with contact tracing and investigation.	Schools have COVID-19 protocols in place. (Mrs. Butler is the school liaison).	The school nurse will contact students families for contact tracing.
Quarantine		

<p>Quarantine recommendations for unvaccinated students for exposures when both parties were wearing a mask, as required in K-12 indoor settings. These are adapted from the CDC</p>	<p>The staff and student quarantine for ten days and had no fever in the last 24 hours for close contact.</p> <p>The infected student quarantine for 14 days and had no fever within 24 hours.</p>	<p>The student will receive Free Public Education and have access through the Independent Study Program.</p>
<p>K-12</p>		
<p>guidance and CDC</p>		
<p>definition of a close</p>		
<p>contact.</p>		
<p>a. When both parties were wearing a mask in the indoor classroom setting, unvaccinated students who are close contacts (more than 15 minutes over a 24-hour period within 0-6 feet indoors) may undergo a modified 10-day quarantine as follows. They may continue to attend school for in-person instruction if they:</p> <ul style="list-style-type: none"> i. Are asymptomatic; ii. Continue to appropriately mask, as required; iii. Undergo at least twice weekly testing during the 10-day quarantine; and iv. Continue to quarantine for all extracurricular 		

activities at school, including sports, and activities within the community setting.		
Isolation rooms		
For both vaccinated and unvaccinated persons, follow the CDPH Isolation Guidance for those diagnosed with COVID-19.	The school has an insolation room for staff and students. If the staff member can leave the school safely, the staff member will leave the school campus.	No change proposed
Hand Hygiene		
Promote hand washing throughout the day, especially before and after eating, after using the toilet, and after handling garbage, or removing gloves.	The school promotes hand-washing hygiene and has Bathroom protocols.	No change proposed
Cleaning		
In general, cleaning once a day is usually enough to sufficiently remove potential virus that may be on surfaces. Disinfecting (using disinfectants on the U.S. Environmental Protection Agency COVID-19 list) removes any remaining germs on surfaces, which further reduces any risk of spreading infection.	The school has Cleaning protocols.	No change proposed
Food Service		
Maximize physical distance as much as possible while eating (especially indoors). Using additional spaces outside of the cafeteria for mealtime seating such as classrooms	It was not addressed in the school COVID-19 plan.	Maximize physical distance as much as possible while eating (especially indoors).

<p>or the gymnasium can help facilitate distancing. Arrange for eating outdoors as much as feasible.</p>		
<p>Additional Concentrations</p>		
<p>Schools should limit nonessential visitors, volunteers, and activities involving external groups or organizations with people who are not fully vaccinated, particularly in areas where there is moderate-to-high COVID-19 community transmission.</p>	<p>The school has a visitor's policy.</p>	<p>Minimize in person visitors. Volunteers can support staff and students via zoom.</p>
<p>Schools should not limit access for direct service providers, but can ensure compliance with school visitor policies.</p>	<p>It was not addressed in the school COVID-19 plan.</p>	<p>Service providers allowed on campus to render services to students. Service Providers on campus will be COVID-19 tested every two weeks by the school nurse or outside agency.</p>
